Invention Education Administrator

A SERIES OF WEBINARS EXPLORING THE POWER AND PROMISE OF INVENTION EDUCATION

Invention Education teaches essential skills students need to navigate the future, whether they become inventors or not. It provides a safe learning environment that encourages students to take risks, experience failure, and be comfortable in ambiguity. Invention education increases students' self-confidence and resilience to overcome challenges and succeed. **We invite you to join us to explore how you can bring invention education to your school or district.**

What is Invention Education? Why does it Matter?

September 19, 2024, 7:00 PM EST

This webinar will present an overview of invention education and what makes it unique. Discover how invention education can be implemented in classrooms along the pathway from elementary to higher ed.

Introducing Lemelson-MIT Resources and Curricula

October 17, 2024, 7:00 PM EST

We will share highlights of our unprecedented curricula and demonstrate how incorporating invention education in the classroom is not only feasible, but engaging for both educators and students.

Educators Share Stories from the Field

November 14, 2024, 7:00 PM EST

At this exciting event, educators currently facilitating invention education will share how they got started, the challenges they faced, and the remarkable outcomes demonstrated by their students.
